

Geofencing and Mobile Technologies for Watercraft

The Story

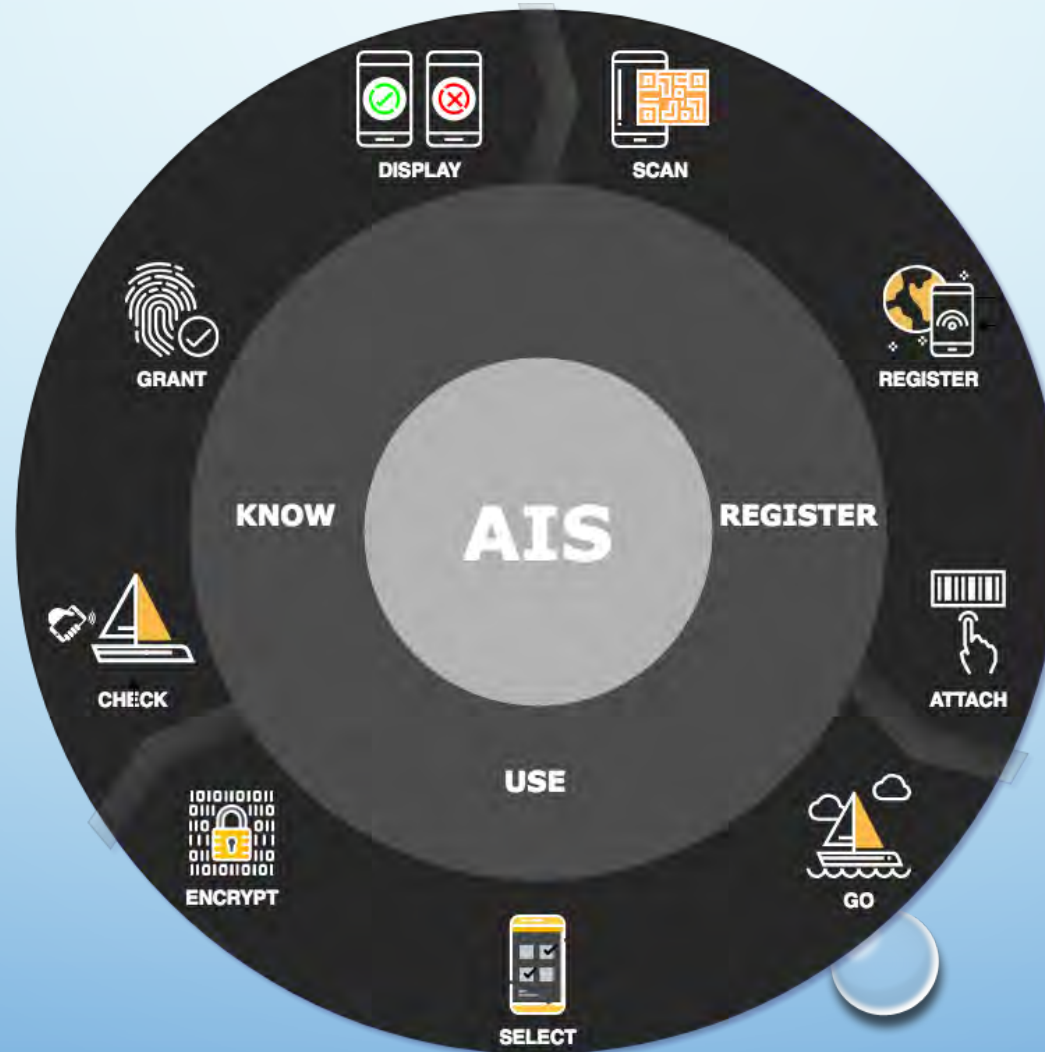

The Better Way

CleanPass

The Big Picture

The Technology

The Walkthrough

The Vision

- obtain highly accurate information from watercraft owners
- eliminate paperwork
- provide standard 30-day history but expanded history if needed
- customize for each station, state, province
- give inspectors information and protocols for each specific AIS encounter
- share information seamlessly especially for RAPID RESPONSE scenarios
- streamline inspections for watercraft owners
